

# ARTEOR™ WITH NETATMO

TALK - SWIPE - TOUCH

legrand®

## HOW DO I BECOME AN ACCREDITED ARTEOR with NETATMO INSTALLER?

1. Qualified electricians can attend a **Legrand accredited training session**.
2. Participation in a training session requires the **compulsory purchase** of either an Arteor with Netatmo Training Case or Starter Kit.
3. Cost of the training is included in the purchase of either the case or kit.
4. In the event of you **failing** the training, the case or the kit is **still yours to keep**. You can **re-apply** to do the training **using the same kit**.
5. **Only Legrand** hosts accredited training sessions. These sessions will be done online.
6. During the training you will be required to wire up and connect the components of the case or kit via video conference (Skype, Microsoft Teams, etc.)
7. Minimum requirements to have with you for the training: **Smart Phone, Wi-Fi Dongle (with data), E-Mail access and tools** (flat screwdriver, wire stripper and side cutter).
8. If you pass the training, you will be issued with a **certificate from Legrand** accrediting you as a Netatmo Installer. The certificate number will correspond with the **unique number found on the gateway** included in either the case or kit that you purchased.
9. Once training is complete you will need to complete the **Arteor with Netatmo Accredited Installer document**. This is for record keeping purposes to note your accreditation and permission to list your installation services on the [legrand.co.za](http://legrand.co.za) website.
10. The training case or the starter kits purchased to participate in the training are **strictly for training and demonstration purposes**. If this product is later sold to a third party, it will then be considered second hand. As such it will no longer carry the Legrand warranty.
11. For more information, please feel free to contact your Legrand distributor or call us on 011 444 7971.
