Netatmo
Same home, just smarter

Our mission

Our mission at Netatmo is to develop products which help make your home safer, more comfortable and more efficient. We are committed to designing products that are:

✓ **Beautiful**
because your interiors deserve the best

✓ **Intelligent**
so that you don't have to spend your time worrying about them

✓ **Useful**
because no one likes gadgets

Your next home is here

Home is the most intimate space we know. It's where you feel at ease after a hard day. It warms you up on cold winter nights, and refreshes you on hot summer days. It's seen your children grow up, seen them take their first steps and say their first words, and protected them from the outside world. It's where you spend nearly two thirds of your life.

This is why you spent months choosing it, why you spent weekends shopping to furnish and decorate it - so that you'd feel as comfortable as possible within its walls. This is why you take excellent care of it. It's an extension of yourself, of your family. And all of this is what you call "home".

Design, architecture, furniture: nearly everything has changed. And yet, certain things have stayed the same. You have to remember to turn off the lights before leaving, to lock the door for fear of a break-in; you struggle with your radiators to achieve the right temperature, you wonder if you've aired out the rooms enough today. And the least bit of doubt about any of these seemingly insignificant things can ruin your day, just like a pebble in your shoe. Now, you can forget all of this. Thanks to Netatmo, you can have peace of mind.

Simply, intuitively, without ever intruding on your private life; Netatmo helps you take control of your home.
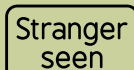

Netatmo,
same home, just smarter.

Smart Indoor Camera

Receive alerts in real time and take action
if an intruder enters your home

Intruder alerts
Familiar or unfamiliar face? With facial recognition and
immediate break-in notification, take action
only when necessary.

Access to all features, and no subscription necessary
Video storage and all Indoor Camera features and
upgrades are accessible at all times without subscription.

Protect your family's privacy
Use facial recognition to pre-record familiar faces to
disable notifications and video recordings of them.
Your Indoor Camera's job is to detect intruders, not
your relatives.

Fully secure data
Fully secure dataWith Netatmo, your data is always
secure. You can store videos locally on a microSD
card using high-security encryption and, if you wish,
back them up to the cloud via Dropbox, iCloud
or your FTP server.

Easy to install
You don't have to be a DIY expert or technical wizard to
install your camera. You just need a plug socket, Wi-Fi, a
smartphone to download the app, and a few minutes to
spare.

Smart Door and Window Sensors

Be alerted even before a break-in occurs

The Smart Door and Window Sensors alert you to a problem even before a break-in occurs. Installed on the doors and windows of your choice, they can tell if someone is trying to force entry. They also detect when a door or window is opened suddenly and send an immediate notification to your smartphone. This saves you valuable time in the event of a break-in.

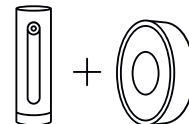

For an extra layer of security, add the Smart Door and Window Sensors to you Smart Indoor Camera. The Sensors only work with the Indoor Camera

Smart Indoor Siren

Deter intruders and protect your home from break-ins

The Netatmo Smart Indoor Siren works perfectly with your Smart Indoor Camera to keep your home safe. Using facial recognition, the camera distinguishes between familiar and unfamiliar faces, animals, and harmless movements. No false alarms! If an intruder is detected, it sends a notification to your smartphone, while the Indoor Siren automatically sounds its deafening 110-decibel alarm.

For an extras layer of security, add the Smart Indoor Siren to your Smart Indoor Camera, The Siren only works with the Indoor Camera.

Smart Smoke Alarm

Be alerted in the event of a fire, wherever you are

Real-time alerts
If the Smart Smoke Alarm detects smoke, it sets off its 85-decibel alarm and notifies you immediately on your smartphone. Essential when you're away from home!

10-year battery life*
The Smart Smoke Alarm is equipped with a 10-year* battery - the maximum lifetime for all smoke alarms. You'll never have to change the batteries!

Self-Test
The Self-Test feature checks if the Smart Smoke Alarm is functioning correctly. If it detects a problem, it sends a notification to your smartphone.

Effortless to install
Install the Smart Smoke Alarm in minutes simply by screwing it to the ceiling. Once fitted, download the app.

*Life span for typical use. The battery's life span may vary based on the use of the Smart Smoke Alarm.

Smart Video Doorbell

See who's at the door
and answer it from anywhere

Always at home, wherever you are
Is someone at the door? See and talk to them live on your smartphone, whether you're at home or on the other side of the world.

Real protection for your home
The person detection feature alerts you in real time if someone is lurking on your doorstep. Is it an intruder? Deter them with the built-in speaker.

Access to all features with no subscription
Video storage along with all product and app features are available at all times with no subscription.

Fully secure data
Your data is always secure locally on a microSD card with high-security encryption. And on your personal cloud, if you wish.

Easy to install
Relax - it's easy to install. If you already have a wired bell with a chime, simply replace the bell and keep your current chime. Then connect the Doorbell to your Wi-Fi.

Smart Door Lock and Keys

Manage and share access to your home securely and easily

Now you really are the master of the keys!
Your Netatmo Smart Door Lock gives you more freedom and makes your home more secure thanks to its Smart Keys and the app's features.

Choose between a Smart Key or your smartphone to lock and unlock your front door
Use it your way! Lock and unlock your front door by inserting your Netatmo Smart Key just like a conventional key, or by using your smartphone.

The Door Lock and Keys are managed in the app
Manage all the features of your Netatmo Smart Door Lock directly in the app, including adding another Key and deactivating a lost or stolen one.

A simple smartphone invitation to allow guests in
Expecting guests? Send them a simple smartphone invitation wherever you are so they can get into the house without you having to leave them a key.

A lock that meets the strictest security standards
Enjoy maximum security: the Door Lock meets A2P*, BZ+ and SKG*** standards, and works via Bluetooth so it is not connected to the internet. It also uses locally stored encrypted data, and the Smart Key is tamper-proof and impossible to duplicate.
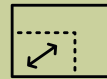

Smart Outdoor Camera

Be alerted in real time and take action
if an intruder trespasses your property

Smart notifications: enjoy peace of mind
Receive a real-time notification via your smartphone
when a person or vehicle is detected on your property.
You decide what to do next.

No more false alarms
Set up your Outdoor Camera to receive only useful
alerts with the Alert-Zones feature and precise
notification parameters.

Camera equipped with a smart lighting system
The built-in smart lighting system lights your way at
night and even helps you to deter intruders.

Access to all features, and no subscription necessary
Video storage and all Outdoor Camera features and
upgrades are permanently available without subscription.

Easy to install
Your Outdoor Camera is easy to install as a
replacement for an existing light or in a new location.
Then simply connect it to your Wi-Fi.

Smart Energy Solutions

A smart heating solution for every home
Netatmo creates smart heating solutions that allow you to save energy to heat your home, without compromising on your comfort.

For individual boiler

Smart Thermostat   Additional
                          Smart Radiator Valves

For collective or district heating

Starter Pack -   Additional
Smart Radiator Valves   Smart Radiator Valves

Smart Thermostat

Comfort and energy savings, every day

Heating schedule: easy energy savings
The heating schedule saves you money and heats your home to just the right temperature. Going on holiday? Set the Absent and Frost Protection modes.

Auto-Adapt feature: always the right temperature, whatever the weather
A Smart Thermostat! The Auto-Adapt feature takes into account the outdoor temperature and your home's insulation to make sure your home stays at the temperature you set.

Control your Smart Thermostat from your smartphone
Control your Thermostat from a distance via your smartphone, tablet or computer. You can also set it manually.

> Compatible with gas, oil, wood boilers and heat pumps.
> Can be placed on the table (wireless) or mounted on the wall.

Starter Pack -
Smart Radiator Valves

Control the temperature
of your home's collective heating

Room-by-room heating schedule
adapted to your routine
Heat your home to just the right temperature, where
and when you need it, with the room-by-room heating
schedule.

Auto-Adapt feature:
always the right temperature, whatever the weather
Smart heating! The Auto-Adapt feature takes into
account the weather and your home's insulation
to guarantee your chosen temperature.

Control radiators from your smartphone
Control your Smart Radiator Valves from your
smartphone, tablet or computer. You can also adjust
the radiator valves manually once you are home.

Additional Smart Radiator Valves

Set the temperature of any room at any time

Room-by-room heating adapted to your routine
Use the room-by-room heating schedule to heat your home to just the right temperature, where and when you need it.

Comfort or Economy Mode?
The choice is yours.
Radiator Valves are a great addition to your Netatmo Smart Thermostat or Starter Pack. Choose between two heating modes. Comfort Priority tells the Radiator Valves to heat certain rooms to a temperature higher than the thermostat. Eco Priority tells them to limit the temperature.

Adjust your radiator heat, wherever you are.
Control your Smart Radiator Valves via your smartphone or manually.

Smart Home Weather Station

Understand and control your environment

Access data on your indoor and outdoor environment in real time via your smartphone
Access your Weather Station's readings in real time via your smartphone. All you need to know about your indoor and outdoor environment.

Consult your data history to understand your environment over time
Analyze your data to understand your environment over time using past readings and charts accessible in the app.

Customize your alerts to take immediate action
Customize your notifications: select the changes in your environment that you are most interested in.

Improve air quality at home with ease
Improve air quality at home. Your Netatmo Smart Weather Station alerts you when indoor pollution rises.

Explore Netatmo Weather Station readings around the world
Join the Netatmo Smart Weather Stations community to explore real-time readings in more than 170 countries.

Additional Smart Indoor Module
Monitor the indoor environment of additional rooms of your choice. The Netatmo Weather Station can monitor up to three rooms using Additional Indoor Modules. Access temperature, humidity, and air-quality (CO_2) readings in real time via your smartphone.

Smart Rain Gauge

## Monitor the rain with your Weather Station

The perfect addition to your Weather Station, the Netatmo Smart Rain Gauge sends rainfall data directly to your smartphone. Check rainfall at home in millimetres per hour remotely and in real time. The highly accurate Rain Gauge measures rain intensity as well as rainfall over the last hour and since midnight.

Rain

Smart Anemometer

Monitor the wind with your Weather Station

The perfect addition to your Weather Station, the Netatmo Smart Anemometer sends wind data directly to your smartphone. Using the latest in ultrasound technology, it reliably measures wind speed and direction in real time - even during storms! The Anemometer can also provide you with more precise readings of the "feels like" temperature outside your home.

aldes BUBENDORFF legrand® GROUPE MÜLLER VELUX®

VELUX ACTIVE with NETATMO

Smart sensor-based solution that intelligently automates the opening, closing and shading of VELUX roof windows, to deliver a healthier indoor climate for you and your family.

Roof windows controlled by sensor technology
Smart sensors measure the temperature, humidity and air quality to automatically open or close your roof windows, blinds and shutters. The solution ensures healthier indoor climate while saving energy.
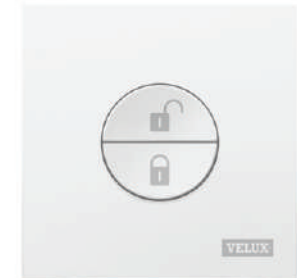

Remote and voice control
Whenever you want, wherever you are, you can use the App or voice control to open and close your VELUX INTEGRA roof windows, blinds and shutters.

An easy departure
Put your home in safe mode with just one tap in the preset departure sequence: all your smart roof windows will close throughout your home and the secured ventilation mode will be activated.

VELUX®

Muller Intuitiv with Netatmo

Smart solution for electric heating enabling you to improve your comfort while helping you save energy.

Smart heating
Smart self-learning heaters regulate the temperature automatically, increasing your comfort and lowering your energy consumption. Muller Intuitiv with Netatmo synchronizes heaters of a same room and analyses your home environment to plan heating times, so that it only turns on when needed.

Room-by-room temperature
Multi-zone heating control guarantees optimal comfort throughout your home. You can set different temperature per room in your schedule or manually select the temperature.

Remote and voice control
Manage your heating from anywhere. Use the App to set the temperature or give simple voice commands to your voice assistant.

AIRELEC ⒶAPPLIMO CAMPA Noirot

Arteor with Netatmo

Smart switches & power outlets, allowing you to remotely control your lights, roller shutters and home appliances.

Just say the word
Give simple voice commands to Siri, Google Assistant or Alexa to manage your lights, roller shutters and home appliances without lifting a finger.

An easy exit
No need to go around the entire house to switch everything off. With just one tap of the 'Away' button on the Master Switch or in the Home + Control App, you can simultaneously switch off all the lights, turn off selected home appliances and close all roller shutters when you leave home.
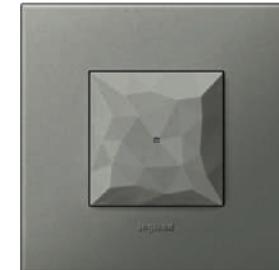

Stay in contact with your home
Remotely control your lights, roller shutters and home appliances from your smartphone, receive notifications and monitor your real-time and overall power consumption.

Control your heating remotely
From now on, you can use Netatmo smart heating solutions (Thermostat and Radiator Valves) and control your home temperature from Home + Control App.

L‚ legrand®

Drivia with Netatmo

Smart electrical panel solution, composed of a range of smart modules to be installed directly into the panelboard, at the heart of the home power infrastructure.

Take full control of your home
From your smartphone, simply control everything that is electrical in your home, from lighting to power-hungry appliances, via the Legrand Home + Control App, or just ask your favorite voice assistant.

Drive your energy bill down
Enjoy advanced energy management features that will help you save energy by precisely monitoring your consumption and automatically taking relevant actions.

Create your own schedules and scenarios
You can effortlessly schedule your lights, home appliances or electrical equipment, for optimized energy consumption, or to deter thieves while away by simulating presence.
You can also create personalized scenarios between the widest variety of electrical devices in the home.

iDiamant with Netatmo

Remote control of your radio shutters

Remote and voice control

From your smartphone, open and close your Bubendorff roller or hinged radio shutters room by room with the Legrand Home + Control App, wherever you are, or simply ask Siri.

Personalized life scenes

Improve your daily comfort with preset and customizable life scenes. When you leave home, an "Away" scenario can be activated in the Legrand Home + Control App to close all the shutters in your home.

Your shutters adapt to your lifestyle

Set one or several custom schedules to trigger the opening and closing of your shutters at specific times, or according to sunrise and sunset.

BUBENDORFF

EasyHOME® Auto
with Netatmo

Smart ventilation solution that helps you maintain the healthiest indoor air quality in your home.

Remote & voice control
From the Legrand Home + Control App, boost ventilation throughout your home for an optimal extraction of polluted air when necessary, or simply ask Siri.

Schedule your home ventilation
You have the ability to include CMEV into custom actions schedules.
For instance, a "Daily" schedule could automatically trigger a ventilation boost at 7:30 every weekday, in order to avoid humidity in the bathroom during your morning shower.

Easy set up
The solution is perfectly suited for retrofitted homes. The connected exhaust fan can easily replace an existing non-connected unit, and the CMEV wireless switch can be stuck and repositionned anywhere in the home.
